

Internal Case Study

“The Qualif application allowed me to find the welding engineer that we so desperately needed, and thus finalize the project team for the TOTAL inspection contract.”

Project manager, South Korea district

Qualification management in Marine Division

“The solution to any problem related to surveyor or engineer competence”

BUSINESS CHALLENGE

- A strong qualification management system is absolutely essential to obtain business licenses from EU and flag administrations
- Clients see it as a very powerful differentiating factor when choosing whose services to employ
- This applies in all 120 countries where the Bureau Veritas Marine network is located

SOLUTION

- “Qualif” – a state-of-the-art Intranet database
- Integrated with the production tool
- Accessible to the whole network

BENEFITS

- On-line access to surveyors' certificates
- Detailed areas of expertises
- Assistance to commercial managers for tenders

ENTITY PROFILE

- Entity name: **Marine Division**
- **Worldwide**
- **140 Offices**
- **1,900 employees**
- **Services involved:** Site inspection and design review for new constructions, Ships in service and material and equipment
